RE AT&T Wireless Services, Inc. Quarterly Report

In the Matter of Revision of the Commission's Rules to Ensure Compatibility With Enhanced 911 Emergency Calling Systems

CC Docket No 94-102

Dear Ms Dortch

As required by its *TDMA Consent Decree*¹ and *GSM Consent Decree*, ² AT&T Wireless Services, Inc ("AWS") hereby submits the attached Quarterly Report on its progress toward and compliance with the terms and conditions of the *TDMA Consent Decree*, *GSM Consent Decree*, and the Commission's E911 rules.

I. AWS TDMA Network

This Report and the Spreadsheet attached at Exhibit 1 include information on the status of AWS' E911 deployment associated with all PSAP requests for Phase I and Phase II E911 service in areas in which AWS operates its TDMA network. AWS has implemented the spreadsheet format requirements adopted by the Wireless

AT&T Wireless Services, Inc., File No. EB-02-TS-002, NAL/Acct. No 200232100003, FRN 0003-7665-32, Order, FCC 02-174 (rel. June 18, 2002) ("TDMA Consent Decree")

² AT&T Wireless Services, Inc., File No. EB-02-TS-018, NAL/Acct. No. 200232100002, FRN 0003-7665-32, Order, FCC 02-283 (rel. Oct. 9, 2002) ("GSM Consent Decree").

November 1, 2003 Page 2

Telecommunications Bureau on June 6, 2003 3/ AWS also has added one extra column to list the entity that made the requests to AWS for E911 service 4/

TDMA Consent Decree Benchmarks: As reported in the August 1, 2003 Quarterly Report, AWS has satisfied each benchmark in its TDMA Consent Decree to date. Specifically, pursuant to paragraph 12(a)(8) of the TDMA Consent Decree, "[f]or valid PSAP requests received after September 30, 2002," AWS was obligated "to provide its Phase II compliant service to 50% of those PSAPs' coverage areas or population within six months of receipt of such request." As of November 1, 2003, for all PSAPs who requested Phase II service between September 30, 2002 and May 1, 2003, AWS has either integrated Phase II service to at least 50 percent of the PSAP's coverage area or population or it has reached an agreement with the PSAP to an alternative deployment schedule

II. AWS GSM Network

This Report includes a list of all markets where AWS has launched GSM service and the date AWS began offering service in each market. The Report also provides information on all requests for Phase I and Phase II E911 service in these GSM markets, including the date the request was made and the status of the request.

Public Notice, Wireless Telecommunications Bureau Standardizes Carrier Reporting on Wireless E911 Implementation, CC Docket No. 94-102, DA 03-1902 (rel. June 6, 2003)

In some cases, a "Requesting Entity" is different from the PSAP, and it may make requests on behalf of more than one PSAP Because the Requesting Entity is the party with which AWS interfaces, AWS tracks its E911 deployment under the Requesting Entity name.

⁵ TDMA Consent Decree, ¶ 12(a)(8)

⁶ See Exhibit 2.

While AWS tracks PSAP requests based upon the date the request was received, AWS frequently receives requests for Phase II service in markets where AWS has not yet deployed GSM service. Under the Commission's rules, the six month deadline for responding to a PSAP request does not begin to run in a given GSM market until the date that AWS begins offering wireless service there. See 47 C.F.R. § 20.18(a) (stating that service providers are subject to the Commission's 911 rules "solely to the extent that they offer real-time, two way switched voice service that is interconnected with the public switched network.") (emphasis added).

⁸ See Exhibit 1

November 1, 2003 Page 3

GSM Consent Decree Benchmarks: AWS has satisfied each benchmark in its GSM Consent Decree falling due in the period since its last Quarterly Report. 97 Specifically, pursuant to paragraph 9(a)(8) of the GSM Consent Decree, "[f]or valid PSAP requests received after April 30, 2003," AWS was obligated "to provide its Phase II compliant service to 50% of those PSAPs' coverage areas or population within six months of receipt of such request "10 As of November 1, 2003, for all PSAPs who requested Phase II service after April 30, 2003, AWS has either integrated Phase II service to 50 percent of the PSAP's coverage area or population or it has reached an agreement with the PSAP for a different integration deadline

GSM Compliance Plan: Paragraph 4 of Attachment A to the GSM Consent Decree requires the AWS E911 Compliance Officer to meet not less than twice a year with all AWS personnel materially involved in E911 to review and explain the Commission's E911 rules, the Commission's rules regarding truthful statements and the obligation to maintain the accuracy and completeness of any pending Commission application, and the requirements of the GSM Consent Decree 11 Mark Loschky, the new E911 Compliance Officer for AWS, 12/ has been conducting those meetings on an ongoing basis since AWS' last Quarterly Report

As required by the *TDMA Consent Decree* and the *GSM Consent Decree*, a copy of this Report is being filed with the Chief of the Enforcement Bureau, the Chief of the Wireless Telecommunications Bureau, and the Executive Directors and Counsels of

As noted in previous Quarterly Reports, AWS has ordered equipment from Grayson to provide a network-based Phase II location solution for AWS' GSM network that is similar to the TDOA solution Grayson is providing for AWS' TDMA network. Grayson has informed the Commission that its technology satisfies the Commission's Phase II accuracy requirements. See, e.g., Letter from Eliot J. Greenwald, Swidler Berlin Shereff Friedman, LLP, to William F. Caton, Acting Secretary, FCC, CC Docket No. 94-102, at 1 (March 26, 2002), Letter from Eliot J. Greenwald, Swidler Berlin Shereff Friedman, LLP, to Magalic Roman Salas, Secretary, FCC, CC Docket No. 94-102, at 1 (May 7, 2001). As set forth in paragraph 9(c) of the GSM Consent Decree, AWS "is relying on vendor representations in agreeing to the deployment schedule set forth herein and for its belief that a network-based solution will satisfy the Commission's accuracy requirements." GSM Consent Decree, ¶ 9(c)

GSM Consent Decree, \P 9(a)(8).

¹¹ GSM Consent Decree at Attachment A, ¶ 4

See Letter from Sara F. Leibman, Mintz, Levin, Cohn, Ferris, Glovsky and Popeo, P C to Marlene H. Dortch, Secretary, Federal Communications Commission, CC Docket No. 94-102 at 1 (September 30, 2003).

AFFIDAVIT OF GREG LANDIS

I Greg Landis, do hereby declare under penalty of perjury under the laws of the United States of America that the following is true and correct:

- I am an officer of AT&T Wireless Services, Inc.
- I have reviewed the AWS E911 November 1, 2003 Quarterly Report and to the best of my knowledge, information, or belief, all of the information contained in the Report is truthful and accurate

Greek X andis

Executive Vice President &

General Counsel

Executed on Atoler 30 2003

AFFIDAVIT OF GREGORY SLEMONS

- I, Gregory Slemons, do hereby declare under penalty of penjury under the laws of the United States of America that the following is true and correct
 - I am an officer of AT&T Wireless Services, Inc.
 - I have reviewed the AWS E911 Quarterly Report dated November 1, 2003 and to the best of my knowledge, information, or belief, all of the information contained in the Report is truthful and accurate.

Gregory Sterions

Executive Vice President - Wireless Network Services

Executed on /0/30/03

AFFIDAVIT OF ROD NELSON

I, Rod Nelson, do hereby declare under penalty of perjury under the laws of the United States of America that the following is true and correct:

I am an officer of AT&T Wireless Services, Inc.

I have reviewed the AWS E911 Phase II Quarterly Report and to the best of my knowledge, information, or belief, all of the information contained in the Report is truthful and accurate.

Rod Nelson
